

Complete personalization meets
EXCEPTIONAL INNOVATION

Newly redesigned in 2017, the Thermador® Freedom® Refrigeration Collection takes personalization to a new level. It's completely customizable both inside and out, so everything you encounter on your unique culinary adventures has its place.

DELICATE PRODUCE BINS

Protect your fresh-from-the-garden fruits and vegetables with new Delicate Produce Bins. With soft-close hinges, bins are also removable so you can bring them to your prep area.

OPEN DOOR ASSIST

Auto Door Opening technology allows you to either push or pull to open the refrigerator door, adding a personalized touch.

TFT DISPLAY

A touch-screen TFT display panel allows for precise temperature control and features a sleek look.

THERMAFRESH SYSTEM

The humidity and temperature-regulated ThermaFresh System keeps your vegetables fresh up to three times longer.

THEATER LIGHTING

See your ingredients in a new light. Theater-style, diffused and filtered lighting ensures visibility while limiting hot spots.

CUSTOM INTERIORS

An all-new railing system allows you to customize Delicate Produce Bins and newly designed shelves on the refrigerator door, so every ingredient has its place.
